

LADYBIRD CLASS

PEEK AT THE WEEK ~ 8.12.25

Hello!

This will be the last newsletter of the term. May I take this opportunity to thank you for all the support you have given over the term. It has been wonderful getting to know the children and watch them settle into life at school, which they have all done amazingly well. I hope you all have a relaxing holiday and I look forward to seeing you in 2026.

This week's learning

Phonics - we have now finished all the new sounds in Level 2. This week sees us recapping all the sounds we have learnt over the term. The children are looking forward to learning Level 3, which we will start in January.

Maths - Our maths this week focuses on the number 5 and we will explore what numbers can be used to make 5.

Literacy - Our book this week is 'Lost and found' by Oliver Jeffers. In the story a little boy finds a penguin and decides to take it back to the South Pole.

Cutting skills - thank you for all your support, lots of the children said they had been practising at home and they were very proud of how well they were cutting by the end of the week. Cutting is a key skills and the children are well on their way to mastering it.

SCIENCE

- Our topic 'What's changed' - continues this week.
- We had fun last week exploring water and ice.
- This week we will find out about how chocolate changes - what happens when we make it colder or hotter? We will use a piece of chocolate, if you would rather your child didn't eat it then please let me know - thank you.

Contact

You can reach me by email. I aim to answer emails within 24 hours, if they are sent after 5pm on a Friday this may be longer.
