

Reading information evening

Dear Parents,

Each year I hold a reading/phonics information meeting for parents of children in Ladybird Class. This year we are holding a whole school information evening covering reading and phonics across all the key stages, it will take the place of the Ladybird Class only session. This will be held on Wednesday 11th February at 7pm in the school hall. Details are on the latest school newsletter.

This is an opportunity for you to find out about the phonics scheme we use, and what our expectations are for reading when your child brings home a reading book. How to support your child so that they see reading as a fun activity and they want to continue and read a range of books.

If this is your first child at Stadhampton Primary School to ensure you are able to support your child fully when they bring a reading book home either attendance at the information session or a meeting at a mutually convenient time will be required prior to books coming home.

An invitation will be sent home during the week so you are able to book a place at the information evening.

I look forward to seeing you at the evening,

Best wishes,

Mrs Stafford
